Zamaca

# About

Gabriel, the founder of Zamaca, had always been fascinated by fireplaces and art. So much that he even turned his affinity of them into a career and worked as a designer in the fireplace industry for many years. It was during this period when he realized that most outdoor grills were generally the same: a one-trick pony when it came to creating outdoor culinary experiences.

Having considered the design of available BBQs on the market, Gabriel wanted to create a completely new experience. Rather than the typical grill scenario, Gabriel envisioned a modular system. Grills can get really hot and smoky, making it next to impossible to share a meal right where the food is. That's what Gabriel set out to change.

His vision was for people to be able to eat directly at the grill, using it as a table, and turning it into a fireplace after dinner. He wanted a BBQ with infinite possibilities, where people could gather to eat and create that warm and cozy intimacy only fireplaces can provide. The design should also be durable and long-lasting, a high-quality experience that could be passed down from generation to generation. The seed was planted and soon the Zamaca was born.

What distinguishes the Zamaca? In a word: comfort. In another word: variety. A combination of social, functional and design elements is what sets the Zamaca apart from other grills. Each Zamaca offers a plethora of customization options so the user can turn it into their own bespoke grill experience. Tailored to the user's tastes and needs, each Zamaca is not only functional but is a piece of artwork that complements the space. The possibilities are endless.

## Outdoor cooking with the Zamaca

Harnessing the power of fire changed human life forever. Despite infinite methods of preparing food being invented since then, the ancient way of cooking over a crackling, blazing fire has remained a favorite.

Barbecuing is still one of the most popular cooking techniques in the world and has attracted a huge following. What's so special about cooking food over an open flame? Maybe it's the whisper of adventure it exudes, or simply the good taste.

The Zamaca is a high-quality, versatile grill that meets all your culinary desires. Picture this: you come home from a busy day and turn on the Zamaca. By the time you remove your shoes and freshen up from the day, the plancha plate is already hot and ready to go! You can fire up the Zamaca more often because it is the perfect companion for getting a quick and delicious meal on the table.

You can cook just about anything on it. Whether you want to quickly grill a steak or make the perfect fish or vegetable dish, the plancha grill plate is non-stick and easy to clean leading to an unbeatable culinary experience. Have you ever made breakfast on a grill? You can even prepare pancakes and eggs on the Zamaca's griddle!

The plancha concept stands for cooking without direct contact between the fire and the food. The Zamaca grill plate is made out of 8 mm-thick stainless steel to keep your food protected no matter what you cook. While other grills need about an hour to reach the right temperature, the Zamaca reaches about 200/220 °C in less than 15 minutes so your food will be cooked to perfection and the flavors will pop.

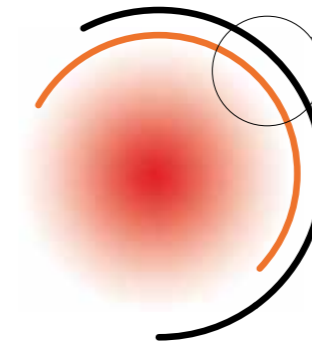

# Come for the food, stay for the company

Barbecuing with the Zamaca differs from other barbecues thanks to the amount of options and its ease of use. All other barbecues are purely utilitarian devices: you put the food on the grill and then walk away. They are smoky, hot and not ideal for accommodating more than the griller. The Zamaca, on the other hand, is made for people to gather around it, to cook, eat and talk together.

Another feature that sets the Zamaca apart from other barbecues is its two-layer design: only the inner layer gets hot, while the outer one stays cool. The layer technology means that no one is in danger of getting burned, especially when kids are running around. The convenient height is reminiscent of comfortably cooking in your own kitchen. It can be easily adapted to your needs, making it a multifunctional device that you can use all evening.

The many add-ons provide even more possibilities and grilling enjoyment for all types of occasions. By adding different sized table tops to the Zamaca, for example, you can use it as a table, while the pizza oven allows you to satisfy other culinary cravings. By adding the fire basket ring after dinner, you can easily turn the Zamaca into a fireplace and use it all evening long.

Two-layer principle:  
Warm inside, cool outside  
thanks to two layers of 3 mm steel

Individualization is getting more and more popular. That is why you can design your own Zamaca according to your personal vision. We offer you two different models, the COCO and the EUPHORIA, with a wide range of colors and add-ons to choose from. This is how you create your own design piece.

# Features and Benefits

A new grilling experience for infinite culinary possibilities paired with a unique design. The Zamaca is a real all-rounder. Learn about the many advantages at a glance.

## Heat in a flash

The plancha grill reaches a temperature of about 200/220 °C (392/428 °F) in less than 15 minutes, making it perfect for quick meals too.

## 5-Year Warranty

The Zamaca will last a lifetime and can be passed on to future generations. However, in the unlikely event of a defect, you can rely on us to take care of it.

## Comfort

The convenient height of 75 cm (2.5 ft.) makes it as comfortable as cooking in the kitchen.

## Quality

Built to last: the body is made of 3 mm thick (0.12 inch) corten steel or stainless steel. The high-quality materials mean that it is low-maintenance and can be stored outside without getting damaged.

## Design

Function meets art: the sleek and harmonious design makes it not only practical, but beautiful as well. The Zamaca's slender shape and array of customization options unite to create a true design highlight.

## Sizes

Enjoy the Zamaca as a romantic dinner for two or with groups of up to eight people. The size L version in particular is perfect for both private occasions and professional events, such as catering weddings, parties or work events.

## Multifunctional

The various attachments make it a multifunctional device: the Zamaca can be used as a grill, pizza oven, a table to sit around, or simply as a fireplace for winding down.

## Cleaning

Virtually nothing sticks to the plancha since it is made from stainless steel. A simple kitchen spatula will do the trick when you want to clean it.

## Sustainable

Much less wood and coal consumption than with typical fireplaces or grills since the working temperatures can be reached quickly. Using bioethanol is also an option.

## Safe

The unique "double-layer technology" provides a cool, outer shell to prevent burns from contact with the hull. Children playing in the Zamaca's vicinity are safe from danger because the outer layer stays cool at all times.

Let's start!  
Create  
your own  
Zamaca

# The Zamaca Principle: Infinite Opportunities

It's simple. Here's how it works: first, choose the model that suits your needs. Then select the size that is right for you. The Zamaca Basic comes with a plancha top but you can also expand your experience by choosing from one of our other options. For example, use the table add-on to turn your Zamaca into a table.

And it doesn't stop there. You can also use the Zamaca to make pizza by adding an extra top. Or if you'd prefer having an outdoor fireplace over barbecuing – no problem. Just use the fire basket ring to turn the Zamaca into an ambient element in your backyard and enjoy a cozy get-together around the fire.

With its sleek shape and (optional) matching chairs, the Zamaca can become a beautiful decorative piece in every home garden. Let your creativity run free and create your own Zamaca from a selection of different materials and colors. The possibilities are endless, but if you can't find what you're looking for, contact us and we'll help you out.

Anything is possible!

## Just the way you like it

Create your own unique barbecue experience and discover the Zamaca's infinite possibilities with two models, three sizes, plenty of add-ons and various colors. Your bespoke experience in four easy steps:

### 01

#### Choose model

Choose between two different models: the COCO and the EUPHORIA.

### 02

#### Choose size

Three sizes can accommodate different amounts of people.

### 03

#### Choose add-ons

The Basic version comes with a griddle. You can add different extensions to turn it into a multifunctional barbecue or simply use it as a fireplace.

### 04

#### Customize

A variety of different materials and colors are available so you can design your Zamaca exactly how you want it.

# The Zamaca Basic

This versatile outdoor kitchen element delights with its high-quality materials and clean design. Unlike the average grill that comes out for the party only to be returned to the corner of the garage at the end of the night, the Zamaca is a great complement to any outdoor space.

The polished stainless steel plancha plate makes food less likely to stick to the surface while cooking. This feature makes your Zamaca easy to clean, while also guaranteeing a long service life. When used standing upright, the raised edge ensures that liquids will not run off the griddle and damage your lawn or patio.

The plancha can be used with or without the rounded center plate. After filling it with wood, you can put the plate back on the grill to increase the available grilling surface. A handle to easily remove the round plate from the grill plate is included. Its height (75 cm) makes it as comfortable as cooking in your kitchen.

You can combine the Zamaca Basic with different add-ons or with the matching Zamaca chairs!

## Features:

Plancha: Mirror polished, 8 mm stainless steel plate  
Body: Corten steel or stainless steel  
Height: 75 cm

Double-layer technology: warm inside, cool outside  
Handle: for easy removal of the grill plate

## Plancha size

(Zamaca / Plancha)  
Ø 35 / Ø 45 cm  
Ø 45 / Ø 55 cm  
Ø 65 / Ø 75 cm

## Temperature

(grilling at)  
Low fire – 120 °C  
Medium fire – 190 °C  
High fire – 250 °C

01

## Choose Model

Choose from two different models: the COCO and the EUPHORIA. The body of each design is made from 3 mm-thick solid steel. The base plate creates stability with a height of 8 mm underneath the surface. Everything else is up to you and a matter of taste.

### COCO

The COCO is our basic model and the classic par excellence. Its sleek design gives it a clean and minimalist appearance while fulfilling all your needs for an amazing culinary experience outdoors.

### EUPHORIA

Our eye-catcher. The glow from within sparkles through the holes and creates a beautiful light to enjoy while sitting around the Zamaca: euphoric.

Ø 35 cm:

**M**

Ø 45 cm:

**L**

Ø 65 cm:

Let's say you go for the COCO.  
The next question is: how many  
people do you need it for?

**S**  
For 2-4 people

Best suited for private gatherings, a romantic candlelight dinner or a nice meal for four in your own backyard. If you want to keep it quaint, then this is the right choice for you.

**M**  
For 6 people

This size is ideal for small groups, cozy family gatherings and bringing friends together to catch up over dinner or a glass of wine.

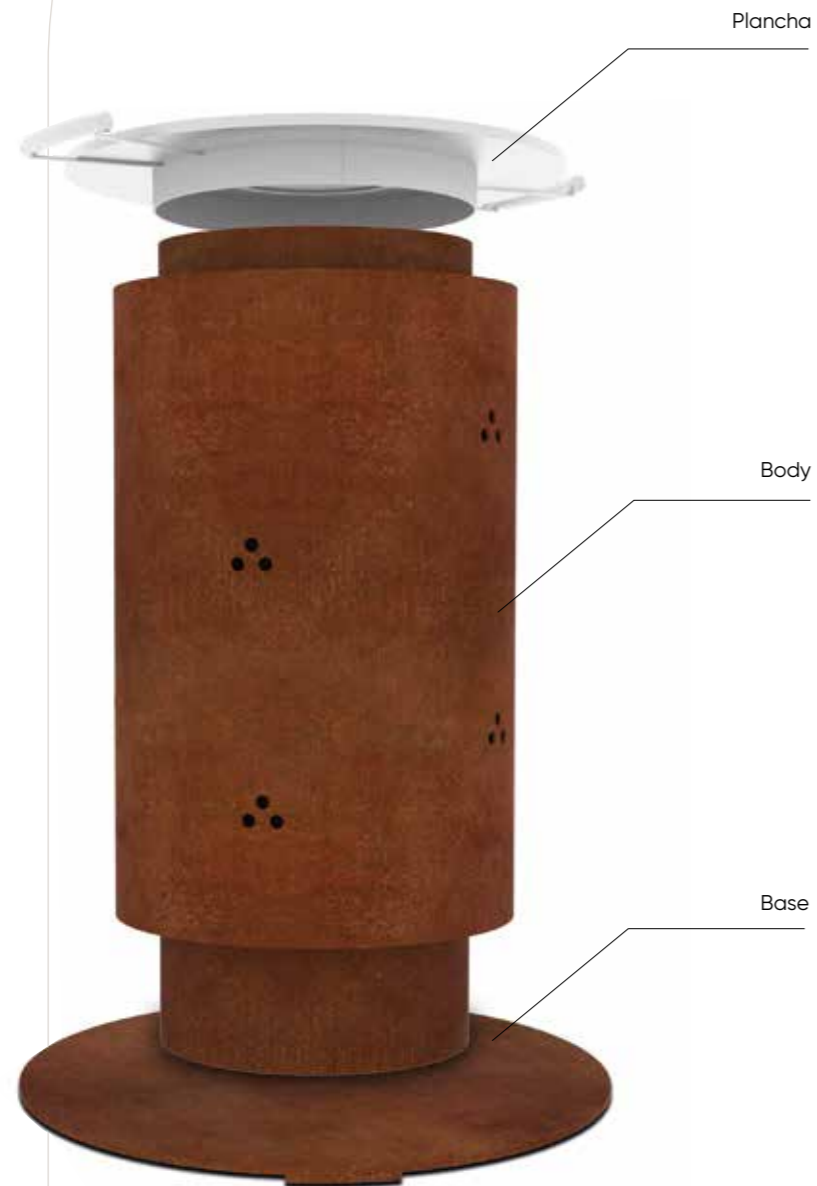

**L**  
For 8 or more people

The perfect size for groups of 8 people or more. It can be used at home for hosting your own backyard parties or for professional events such as:

- *Beach clubs*
- *Wedding parties*
- *Catering*

03

## Choose Add-ons

The Zamaca Basic contains the base, body and plancha. You can always create new combinations or expand it using add-ons and accessories to make it meet your needs.

# Utility Ring

Always have your cooking gear within reach thanks to the grill tray add-on. Designed so you can hang all of your grill equipment right next to you, it is a practical extension for things such as towels, tongs, etc. The grill tray is easy to use and the ring is very simple to attach.

You can also combine the utility ring with all of Zamaca's other attachments such as the fire basket ring or pizza oven add-ons.

---

## Features

Mirror polished stainless steel

## Sizes

(Zamaca / Ring)

Ø 35 / Ø 56 cm

Ø 45 / Ø 66 cm

Ø 65 / Ø 86 cm

Can also be combined with  
the EUPHORIA-Body

## Table Top: Single

The single table top comfortably fits one person and is a practical add-on that features an elliptical table top. The central table base provides plenty of room underneath so you have enough leg room while you eat. It can also be used as a side table for condiments and extras like oil, herbs, towels, plates, cutlery and beyond. It is easily mounted onto the compact and sturdy Zamaca body.

The matching Zamaca chairs can also be added as a handy extension to your Zamaca grill.

You can also combine this feature with all of the Zamaca's other attachments such as the fire basket ring or pizza oven add-ons.

---

### Features

Mirror polished, stainless steel  
Table plate thickness: 3 mm

### Table top size

(Zamaca / Table)  
Ø 35 / 93 x 56 cm  
Ø 45 / 103 x 66 cm  
Ø 65 / 123 x 86 cm

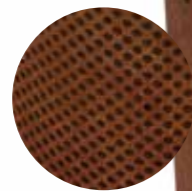

## Table Top: 2-4 people

The table top for 2-4 people features a stainless steel table and creates a cozy dining experience directly at the Zamaca. This size allows you to delight in fresh food straight from the grill as you socialize and enjoy your meal with your guests. It can also be used as a side table for condiments and extras like oil, herbs, towels, plates, cutlery and beyond.

Add the matching Zamaca chairs for a beautiful décor piece in your garden and optimal comfort. The ring around the edge is sleek and practical so you can hang all of your grill equipment on it. It also prevents spillage.

You can combine this feature with all of the Zamaca's other attachments such as the fire basket ring or pizza oven add-ons.

Can also be combined with  
the EUPHORIA-Body

---

### Features

Mirror polished stainless steel  
Table plate thickness: 3 mm

### Table top size

(Zamaca / Table)  
Ø 35 / 130 x 56 cm  
Ø 45 / 140 x 66 cm  
Ø 65 / 160 x 86 cm

Can also be combined with the EUPHORIA-Body

## Table Top: 8+ people

The table add-on for eight or more people features a rounded table top and is designed for groups of 4 to 8 people (or more) to eat comfortably around the Zamaca. This larger version is ideal for professional events at locations such as beach clubs, weddings and catering events. It can also serve as a great addition to any backyard gathering for those who like to host parties at home! It's a dining table designed for you to enjoy food directly at the barbecue.

You can also combine this feature with all of the Zamaca's other attachments such as the fire basket ring or pizza oven add-ons.

---

Mirror polished stainless steel  
Table plate thickness: 3 mm

### Table top size

(Zamaca / Table)  
Ø 35 / Ø 120  
Ø 45 / Ø 130  
Ø 65 / Ø 150

# Fire Basket Ring

Some dinners turn into long nights of talking around the table. Rather than calling it a night when the meal is over, continue the evening in a pleasant atmosphere with the Zamaca fire basket ring. It allows you to turn your grill into a cozy outdoor fire pit right in your own backyard. All you have to do is remove the griddle and your fireplace is ready to go.

If you want to skip dinner and go straight to sitting around the fire, that's possible too! The slanted ring at the top allows wood to easily slide into the inner mantle. When you want to relax and enjoy quality time with friends and family under an open sky, the fireplace add-on creates the perfect environment of relaxation for both hosts and guests.

Add the matching Zamaca chairs for a beautiful décor piece in your garden and optimal comfort. You can also combine the fire basket ring with the utility ring and all table top sizes.

---

## Features

Thickness: 2 mm  
Mirror polished, stainless steel

## Ring sizes

(Zamaca / Ring)  
Ø 35 / Ø 45 cm  
Ø 45 / Ø 55 cm  
Ø 65 / Ø 65 cm

# The Pizza Oven

Not in the mood for a barbecue today? No problem. Turn your Zamaca into a pizza oven to enjoy pizza like you get at an Italian restaurant. All you have to do is put the oven on the grill and the Zamaca will take care of the rest. Bake any pizza yourself – homemade or from the supermarket – on the ceramic plate or turn it into a real pizza oven with the matching cover. The thermometer allows you to measure the temperature under the lid so you can achieve the perfect pizza crust fluffiness.

You can also combine the pizza oven with the Zamaca's utility ring and all table top sizes.

*This product is still in development*

---

## Features

Lid: stainless steel

Thermometer

Ceramic plate thickness: 1 cm

The pizza oven is suited for all three sizes of the Zamaca

Power: 16kW

Temperature: 100 to 900 °C

# Zamaca Chairs

If you have the perfect grill element, then it's only natural to have the matching chairs to go with it!

We wanted to design a chair that fits perfectly to the Zamaca so you can enjoy cozy moments around the fire. The chairs are made of stainless steel and corten steel. The stable foot plates of this swivel chair offer stability and a comfortable place to sit. Everything even tastes better when eaten on the Zamaca chairs!

You can add an extra side table for wine, condiments or other things. This set-up gives you the option of using the chairs together with the Zamaca grill or separately.

*Coming soon!*

in you

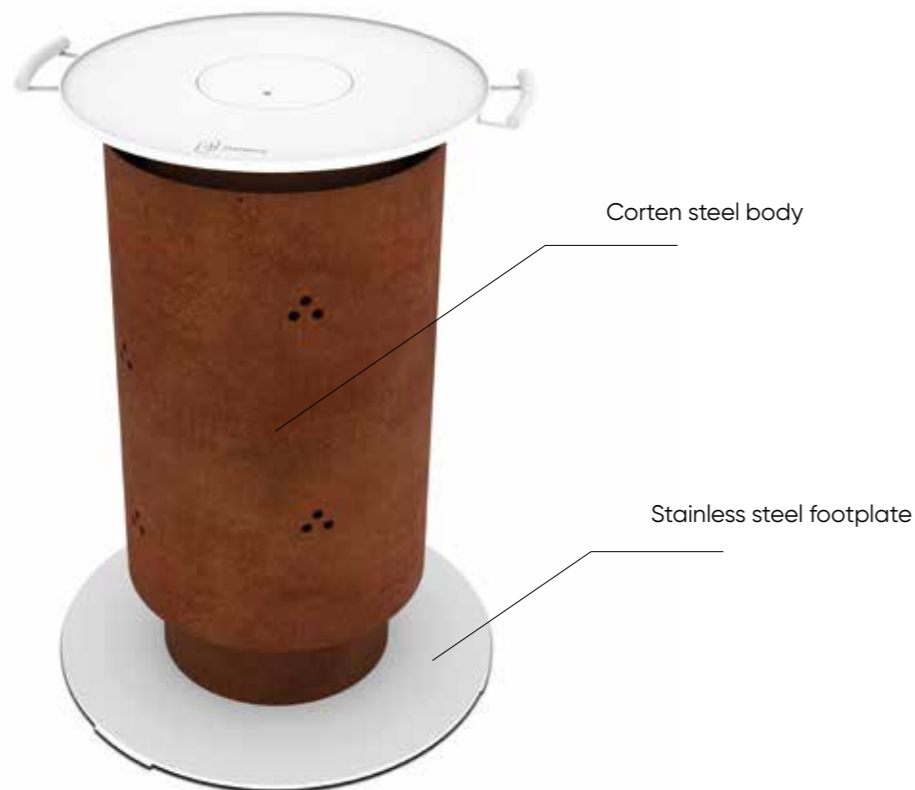

The last step is creating your own work of art through the perfect finishing touches.

04

## Customize

Now it's time for the fun part – creating your own customized Zamaca from countless textures, colors and features.

The Zamaca Basic comes in corten steel but you also have the option of choosing stainless steel. The stainless steel versions can also be delivered with the mirror polished finish. And you don't only have to stick with one type of metal, you can also mix and match. For example, the Zamaca body can be made out of corten steel and the base in stainless steel (as in the example). The stainless steel version can also be supplied with a mirror polished finish. Regardless of what material you choose, both are durable, easy to use and of the same high quality.

## Metals

### Stainless Steel

Stainless steel is a favorite material of designers and architects since it is able to withstand the elements. It is resistant to high temperatures and is easy to clean, making it ideal for grilling all kinds of food at various temperatures. Stainless steel also doesn't rust or corrode easily, making it a perfect material for cooking food in your outdoor kitchen.

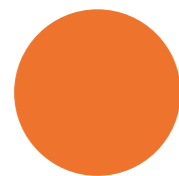

### Corten steel

Corten is a metal alloy consisting of iron to which copper, phosphorus, silicon, nickel and chromium have been added. It is weatherresistant and a real beauty. Its strength is comparable to that of other alloy steels such as stainless steel, making it extremely long-lasting. Due to its resilience to the elements and characteristic patina, corten steel is also used in architectural projects. Beneath its rust layer, a barrier layer of sulphates or phosphates has been created to protect the steel from further rusting.

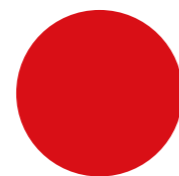

# Colors

Now it's up to you, the possibilities are infinite! You have plenty of options to design your own Zamaca and truly make it your own. Here are some ideas to get your own unique color and take your creation to the next level:

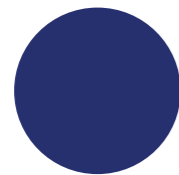

- Have your Zamaca powder coated in any of the 213 RAL colors
- Color the footplate in a different color than the body
- Choose one RAL color for the rings and a different tone for the body
- Select a color combination from our palette. We can also customize any RAL color tones to fit your requirements.

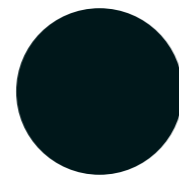

**Royal Dutch Orange**  
RAL 2004
